

BROADMOOR'S ADOPT-AN-OAK PROJECT

The Adopt-an-Oak Team participated in a tree inventory in February 2007. Part of this work was done as preparation for a grant application to Entergy of Louisiana for funds to assist with the replacement, maintenance and preservation of trees in Broadmoor. Residents are encouraged to adopt an oak on Goodwood Boulevard and be responsible for monitoring the tree's condition. See the Adopt-an-Oak introduction and FAQ for details.

Here are some photos provided by Team Member Hallie Dozier, an Assistant Professor at LSU AgCenter's School of Renewable Natural Resources, and a member of the Broadmoor Residents Association.

Team Leader Hallie Dozier measures the circumference of a tree on Goodwood Blvd.

Team member Jason Stagg records data.
